6 Pack Abs: firm, flatten, sculpt, and strengthen your abs. It takes more than just crunches! Expect some cardio drills to help melt away the layer of fat covering your 6-pack. Intermediate to Advanced Levels

Alignment Yoga: focuses on improving mind-body connection by providing visual feedback on the body's alignment. The class is practiced in the room with mirrors and detailed explanations on proper alignment in various Yoga poses. Great for people new to Yoga as well as experienced practitioners looking to deepen their understanding of proper alignment and body coordination.

Barre: A group class uses a barre as a prop to balance while doing exercises that focus on isometric strength training focusing on proper body alignment. Incorporating light weights, resistance bands and sliding discs creating a blend of cardio, strength training, flexibility, balance and core conditioning in a total body, low impact workout.

Body Pump: a group resistance training class choreographed to powerful music. Weight training with high repetitions and low loads to increase lean muscle mass, building muscle and cardiovascular endurance, and improve posture. All levels

Body Combat: is a high-energy martial arts-inspired workout that is totally non-contact. Punch and kick your way to fitness and burn up to 740 calories** in a class. No experience needed. Learn moves from Karate, Taekwondo, Boxing, Muay Thai, Capoeira, and Kung Fu. release stress, have a blast and feel like a champ.

Cardio Dance: fuses musical rhythms and choreographed moves along with squats, lunges and even burpees. Have fun while burning tons of calories and toning every part of your body.

Cardio Express: This non-stop cardio workout is appropriate for all levels. Both high and low impact options will be provided. Steady state cardio to high intensity bursts will be utilized during this 30 minute class that will include a warm-up and cool-down. Join the fun and get your heart pumping!

Cardio Sculpt: All levels friendly. Will kick your cardio into top gear with strength training drills, reps and exercises that will tone and build strength.

Circuit: A total body workout using the strength machines on the fitness floor. All levels welcome. Due to the nature of instruction, those registered for TRX or Circuit classes must arrive on time for instruction. If you are late you will not be able to attend the class.

Core: Using resistance bands and weight plates as well as bodyweight exercises, Les Mills Core helps you build strength, stability and endurance in the muscles that support your core, improve balance, assist injury prevention, and become better at everything you do. Plus there are some hip, glutes, and lower back exercises too. All Levels.

Group Cycle: This class is filled with various levels of cycling structured to build your endurance and strength.

Flexibility Training: Whether you've been telling yourself for years that you're "just not flexible" or you are ready to take it to the next level, this class may be for you! This is not a basic stretch class. Flexibility training is focused on improving and enhancing full-body flexibility & mobility using a blend of modalities based in functional & primal movement principles, yoga & dance technique, and traditional stretching methods. This class is suitable for beginners just starting their bendy journeys, while it can also be geared to the intermediate/advanced student.

HIIT Total Body: Sculpt your core, legs, abs, and upper body with high intensity, multi-planar functional exercises designed to improve muscular strength and endurance, and build cardiovascular fitness. Upper body work included with special emphasis on abs and lower body, including plyometrics. Modifications are provided so you can progress at your own pace.

Just Strength: Strength training class using dumbbells, barbells, body weight and more for a total body muscle strengthening workout. All levels welcome.

Mat Pilates: This class will focus on the exercises created by Joseph Pilates over 80 years ago: core, abdominal, and back strength; full body flexibility; posture, and body awareness through controlled breathing and proper alignment.

Level 1: beginners, Level 1.5: advanced beginner, Level 2: intermediate

Meditation: Participants will learn different breathing techniques, guided imagery, and stretches in order to induce relaxation and a sense of peace. This is a great way to ease the stresses of your life and help you feel refreshed both mentally and physically. Regular meditation can help improve your focus, mood, and sleep capabilities, along with lowering your heart rate and stress hormones.

Parkinson's Exercise Program: Classes include warm up, vocalization, agility and cross body movements. Learn

Power Yoga: A faster paced yoga that is focused on building strength and endurance. An excellent form of yoga for burning calories.
